

## **Acknowledgements**

The authors gratefully acknowledge the contributions of several people to this project. Dr. Dudley Smith and Mr. Brian Maselli contributed to the early work which culminated in Mr. Maselli's Master Thesis which is referenced in this report. Dr. Frank Gallagher, Assistant Professor in Meteorology at the University of Oklahoma, contributed to the early phases of the telemetry system development.

Ken Howard and Dr. Mike Douglas, of the National Severe Storms Laboratory, Norman, OK., contributed significantly to the success of this project in ideas and suggestions, help in the flight tests, especially the balloon tests, and through their support for the financing of the project. Finally we appreciate the support of Dr. James Kimpel, Director of NSSL, Norman, for his support of the project.
